

Keithley SMU and KickStart Software Bundle Promotion

Are you still writing your own test software?

Increase speed and efficiency by making measurements with Kickstart software. KickStart simplifies what you need to know about the instrument so that in just minutes you can take the instrument out of the box and get real data on your device. By plotting data immediately and offering quick statistical summaries of the data.

Get up to 20% OFF with a bundle purchase of Keithley SMU and KickStart Software.

LIMITED TIME ONLY
VALID TILL
31ST DECEMBER 2020
SPECIAL OFFER

Get up to **20% OFF** with a bundle purchase of Keithley SMU and KickStart Software.

Get more. For less.

Accelerate the path to the measurements you want when you pair up the Keithley SMU and KickStart Software. Simplify what you need to know about your SMU in just minutes and get real data on your device.

2400 Graphical Series SMU

Keithley 2400 Graphical Series SMU instruments offer four-quadrant precision voltage and current source/load coupled with measurement now on an intuitive touchscreen user interface. These instruments can simultaneously source and measure current from 10 fA to 10 A pulse and/or voltage from 100 nV to 1100 V for 1000 W pulse and 100 W DC total power, allowing users to Touch, Test, Invent®.

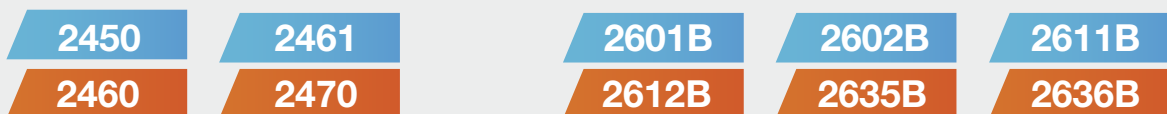

2600B Series SMU

Keithley's Series 2600B System SMU instruments are the industry standard current-voltage source and measure solution for highly automated production test applications. Both dual- and single-channel models tightly integrate a precision power supply, true current source, DMM, and electronic load with pulse generating capabilities.

Eligible Models
